

# KRONOS<sup>®</sup>

## The KRONOBag<sup>®</sup>

Best  $\text{TiO}_2$ -packing ever.

Sustainable and  
easy to handle.

The KRONOBag is a new innovative Big Bag for packaging titanium dioxide. Designed and developed by KRONOS to fulfil customers' needs.

The versatility of the bag, combined with its technical features, its easy handling and its contribution in terms of safety, will deliver various benefits to our customers:

- ★ Premium quality packaging
- ★ Easy handling
- ★ Sustainability

## ★ Multi-filament loop-in-loop system

*Easy to handle - Great flexibility - Excellent processing*

The loop-in-loop design offers the flexibility to process the bag in various emptying devices that may require different heights.

The KRONOBag is equipped with 4 corner loops made of particularly soft, multi-filament material. The loops display excellent stability, offer maximum safety (6-1) and combine that with great processing flexibility.

## ★ Smooth, dustproof seams & umbrella stitching technology

*Excellent dustproofness*

The KRONOBag was designed with premium dust-proof properties and specific stitching technologies in the most critical areas, such as the top deck / body stitching. This delivers maximum leakproofness and offers excellent primary protection.

## ★ Premium fabric & design

*Excellent appearance and quality*

The KRONOBag offers premium PP fabric to the latest technological standard.

## ★ Flared emptying spout

*Easy, fast opening*

Product flow and output are maximised, due to the oval, flared emptying spout.

## ★ Easy opening system

*Easy handling and workplace safety*

Opening Instructions displayed (in pictures) on the KRONOBag

## ★ Rectangular bag with reinforced corners

*Extra stability on pallet*

The bag design includes a new corner stabiliser. As a result, safer transport is achieved as well as an increased stacking height (depending on the product up to three pallets high).

## ★ Sustainable packaging

*Reusability - Recycling*

A trip counter will be printed on the back of the Producer Label of our new FIBC.

We offer a free collection service for our "multi-trip" KRONOBag.

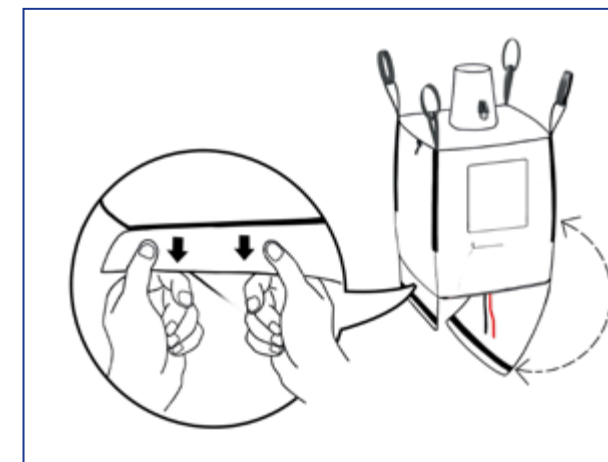

## ★ Bottom flap fixed by Velcro® tape

*Easy to open*

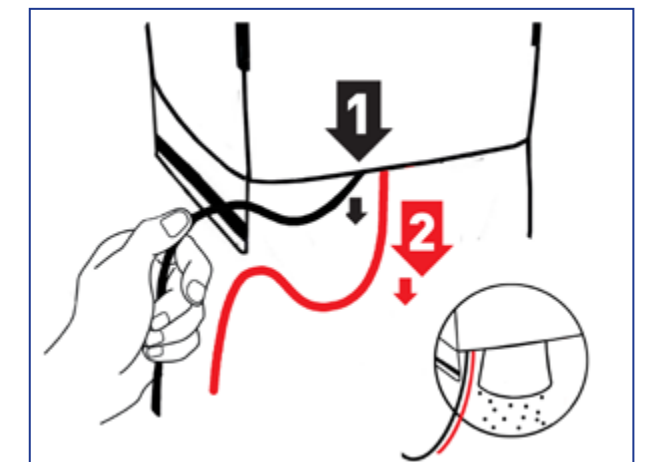

The bottom flap, which protects the emptying spout and ensures easy opening of our KRONOBag, is fixed by a Velcro® strip. The flap protects the opening system and avoids contamination.

# KRONOBag®

## Opening instructions

Pull the overlapping fabric to open the Velcro® at the left side of the FIBC. The bottom flap will open to the right side.

By opening the bottom flap, a black and a red tie will show up.

### IMPORTANT:

**FIRST** pull the **BLACK** tie to open the safety knot and unlock the B-Lock. **THEN** pull the **RED** tie to open the B-Lock.
